WE MAKE BRANDS STAND OUT FROM THE CROWD
At the heart of everything we do lies true engagement with consumers. We are pioneers in the growing field of experiential marketing.

Award winning Kommando was founded in the late 90’s & has operated in 21 countries. We devised the first Pan European Bluetooth campaign for Levis, launched a new fragrance for renowned global fashion house Chanel across 5 countries and captured global press at the Brits on behalf of the Kooks.

We’ve turbocharged our brand experiences by investing heavily in patented technology, enhancing the depth and reach of brand engagement, particularly through digital and social marketing channels.

You’re in safe hands thanks to our enrolment in ISO 9001 and undertaking accreditation for British Standard 8901.
Working directly with agencies & leading brands, we’ve been creating and delivering unique brand experiences for over 15 years.

FIELD MARKETING:

Kommando can help to deliver a full field marketing campaign from insight to creative, through to implementation and post campaign analytics. Typical Field marketing campaigns would use a mixture of techniques from Field sales, Mystery shopping and Sampling to Merchandising and Data-capture.

“The campaign worked well for us and fitted in with our key objectives – driving sales and awareness of Scottish produce in our stores. Should the government look to repeat this activity we would be keen to be involved again.” UK Tesco.
