

# INTRODUCING PIXANGELS...

## Digital photography put through its paces.

Picture this. Elite models with specialised wearable photo technology, PixAngels roam, engage and shoot; giving your audience something to remember your brand with. Our gorgeous photographers can produce on the spot lab quality photographs in a branded frame for your guests.

## Impact is priority but measurement cements the success.

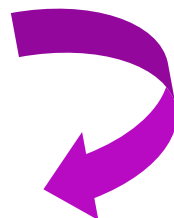

Not only do your audience members get to keep a picture, they also receive a unique link to your bespoke branded gallery where they can view, download, e-card and seed their image to a range of social media platforms, sharing their picture and your brand with their friends. Which of course also provides you with data capture and fully measurable results.

# THE PROCESS...

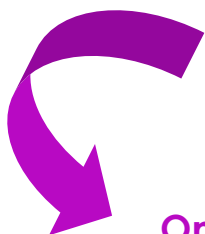

## Photo is taken

PixAngels roam, engage with the audience and take their photo.

## Photo is printed

PixAngels print lab quality photo immediately and hand to consumer in fully branded frame to take home.

## Online Seeding and Data-Capture

Call to action invites consumers to fully branded bespoke gallery via client webpage where they can view, download, e-card and seed their photograph to social networking sites, providing a platform for data-capture and getting your brand name out there.

# BENEFITS...

- Increase visual impact of your brand and engage your audience;
- Bring to life your sponsorship association at events;
- Drive traffic to your chosen website, track downloads and data-capture;
- Upload branded picture to social networking sites for increased visibility;
- Fully measurable statistics.
